

October 24, 2007

The Honorable NAME  
United States House of Representatives  
Washington, D.C. 20515

Dear Representative,

In light of recent revelations of Planned Parenthood's alleged systematic violation of state laws in Kansas, the undersigned organizations request the immediate suspension of Planned Parenthood's federal funding until it can be determined whether the organization violated state and/or federal laws.

According to the 107-count complaint filed in Kansas' Johnson County District Court last week, Planned Parenthood purposefully performed illegal late term abortions in violation of Kansas State law and unlawfully falsified documents in order to conceal that fact. They are also accused of failing to comply with the required medical reporting guidelines.

The complaint alleges 29 misdemeanor counts of performing "*unlawful* late term abortions," 29 misdemeanor counts of "unlawful failure to determine viability for late term abortion," 23 *felony* counts of "making false information," and 27 misdemeanor counts of "unlawful failure to maintain records."

Planned Parenthood operates around 860 facilities around the country, and there are approximately 40 states with laws banning late term abortions. This illegal conduct may be happening all over the country.

While Planned Parenthood claims that it does not perform late-term abortions after 22 weeks, the charges were reviewed by a Johnson County, Kansas district judge who found probable cause. These are substantive charges levied against Planned Parenthood. States have passed laws on late-term abortions because they are detrimental to women as well as babies. Women are often not informed that late-term abortions increase the likelihood of severe blood loss, damage to vital organs, later premature births and loss of fertility.

We urge you to act to ensure that our tax dollars are not subsidizing abortion clinics that perform possibly illegal late-term abortions.

Sincerely,

Wendy Wright, President  
Concerned Women for America

Dr. Janice Shaw Crouse  
Director and Senior Fellow  
The Beverly LaHaye Institute
